

Steven- April 2001
Robert- January 2004

These brothers are kind, loving, and funny! They need an adoptive home together. Steven can be very practical and down to earth. He can be very talkative at times, but he can also be quiet, needing his alone time. He likes Pokémon cards, drawing, and video games. He also enjoys reading. Robert is bubbly, playful, and very talkative. He likes guitar, basketball, painting, drawing, Legos, and writing stories. Both boys love animals.

The boys have extended family in Nevada and California that they would like to stay in some contact with. They would do very well in a home with older children who can be role models for them. They would also do well as the only children in the home. They need to be in a smoke-free home. They say they would like a family who goes to church. These brothers are free for adoption and in need of a permanent home!
